

Why the big picnic?

Llandaff Fields were donated to the people of Cardiff for their sport and recreation. We have all had a chance to enjoy these magnificent central parks, please help us to protect and enhance them for future generations too, for their health and happiness.

Economic cuts are threatening councils' abilities to maintain public green spaces so, as local people, we have come together to forestall any transfer of these public assets into private hands. We want to avoid any commercialisation or building on these green spaces. We aim to support council spending through our own fundraising and have already put in a lottery bid; our intention is to improve facilities in the Fields and keep them open for everyone. The Big Picnic/ Y Picnic Mawr is to showcase the variety of activities already available and to open up the way to new and improved opportunities and inspire more people to protect this priceless asset.

We would love to have many more interested in our endeavours to retain the integrity of the park and its environs. If you would like to be put on our mailing lists and a chance to enter a draw from one of our sponsors, Belle Toujours, (113 cathedral Road CF11 9DJ) for a St. Tropez Spay Tan and Elemis facial, please complete the information below
